Target segment

Segment	SAM	SOM	Share	ROI	LTV	Barrie to ent.				
PONDER										
1st segment										
2nd segment										
...										

This tool will help you choose the right segment in your market to focus on. Define ponder between 0 (lowest) and 1 (highest) based on how important each criteria is for you. In some cases you can add or remove some criteria, depending on your startup's characteristics. Then fill out all fields for all of your segments. In the end multiply every value with ponder.

SAM (Serviceable Available Market) - The portion of Total Available Market you will target and reach based on your current business model.
SOM (Serviceable Obtainable Market) - The subset of your SAM that you will realistically reach, particularly in the first few years of your business, based on practical limits of your business model.
Share - The percentage of the industry or market's total sales that you will earn over a specified time period.
ROI (Return On Investment) - Divide the benefit (return) of an investment by the cost of the investment; the result is expressed as a percentage.
LTV (User Lifetime Value) - A prediction of the net profit attributed to the entire future relationship with a customer.
Barriers to entry - Estimate the barriers to enter this segment and assign it a value between 1 (lowest) and 10 (highest).
Competition - Estimate the competition in this segment and assign it a value between 1 (lowest) and 10 (highest).
Strategic - Define a strategic value of the segment. Assign it a value between 1 (lowest) and 10 (highest).
CAC (Customer Acquisition Cost) - The cost associated in convincing a customer to buy a product/service.
Price - How much will it cost you to enter this market through this segment?
